

Dual Tram Workhorse Scoop

Fairchild International has a wide selection of rubber-tired scoops available in battery-powered and diesel models for any seam height or slope

The PRODUCTIVITY AUTHORITY

At Fairchild International, we know the importance of accomplishing more in less time. That's why our extensive MSHA approved permissible scoop line is ideal for helping you move supplies and maintain roadways quickly and safely. With a dozen models to choose from, there's sure to be at least one that's right for your application.

Regardless of load size, seam height or slope, our rubber-tired scoops deliver the performance you need to meet increasingly tight production schedules. Because Fairchild scoops are custom built to meet your application, you'll never have to settle for less.

With innovative engineering developed over more than 40 years of being in business, Fairchild gives you state-of-the-art technology. You also get the satisfaction of knowing your equipment sets the industry standard.

If running an efficient continuous mining operation is one of your top priorities, purchasing a Fairchild scoop should be too. To learn more about how our equipment can improve your mining efficiency and production please give us a call at 540-726-2380, or visit www.fairchildint.com
